

## Animal Dominoes

A simple word recognition matching game for 2—6 players.

- Print off the 7 sheets of cards (for best results set printer settings to **A4**), laminate and cut each page into 4 tiles, horizontally in pairs, giving 28 cards.
- Deal cards out to players, 4 or 5 each, place rest of cards in middle of the table.
- Ask players to pick up their cards and ask who has the double horse card ( i.e. a picture of a horse & the word **horse** (If no one has that card ask who has the double pig card.).
- The next player clockwise has to match a horse card from their hand with the horse card laid initially, it can be either a picture or a word. Double cards are placed at right angles to the chain. If a player has no horse card, they must make the noise of a horse (or knock the table) and pick a card up from the pile, this constitutes their turn.
- Play continues until one player has played all their cards and is called the winner.
