Inference and Deduction

Booklet 6

Name.....

MISSING

Our cat Preston has been missing since last Thursday, 2nd February and we are getting worried.

He is a ginger cat with three white paws and a white tip to his tail.

He was wearing a blue collar with a tiny bell on it.

He is very shy but will come when called.

He has to take medication twice a day for an infection.

PLEASE check sheds and garages as we are very worried.

There is a £25 reward for information which leads to his safe return.

Our contact details are:-

The Anderson Family,

11, Gloucester Road,

Brunton.

Tel; 452378

Or 07764287610

Thankyou.

Missing Poster
Deduction and Inference 1 Questions

1.	If today is the 9th February, for how long has the cat been missing?
2.	How many paws does the cat have that aren't white?
3.	What is unusual about the cat's tail?
4.	Why do you think his collar has a bell on it?
5.	If he had been missing for two days, how many doses of medicine would he have missed?
6.	Where do the Andersons want people to look?
7.	What is the name of the street where Preston lives?
8.	What is the telephone number of the Andersons?
9.	How much is the reward that is offered?
10.	What are the house numbers of the Andersons two next door neighbours? (think carefully about this)

Deduction and Inference 3

Sam Hayman

17, Church Street,

Brunton.

BR12 4TT

*Mr. Brownley,
General Manager,
Brunton Motors,
Wellington Road,
Brunton.*

Friday 3rd. February, 2017

Dear Mr Brownley,

I am an eleven year old boy who goes to St. Cuthbert's School and this term we are doing a project on Cars and Transport.

I am writing to ask if you have any brochures, posters or leaflets about the cars that you sell at your Ford dealership.

I am particularly interested in the Ford Kuga model.

I walk past your premises on my way to school each day so I could easily pop in and pick some up. I would be very grateful for any information as it will help me produce a great project.

Please let me know when would be a good time to pop in.

Many thanks,

Sam Hayman

Letter to Mr Brownley
Deduction and Inference 3 Questions.

1.	Who wrote this letter?
2.	What is Mr Brownley's job?
3.	Which school does the letter writer go to?
4.	Which makes of car do they sell at Brunton Motors?
5.	In which specific car is the letter writer most interested?
6.	Where does the letter writer live?
7.	What does the letter writer want from Mr Brownley?
8.	Why does the letter writer want information on cars?
9.	If the letter writer is in year 6 in 2017, which school year was he/she in, in February 2015?
10.	On what street is Brunton Motors?

Deduction and Inference 4

Double Trouble

Sadie was very excited as both her Grannies who lived away had sent her very similar sized parcels as birthday presents. They were wrapped in different styles of wrapping paper but they were the same size, shape and weight. The first one she opened was from Granny Hopkins. As she opened it, she realised it was a book. She soon recognised that it was the Jacqueline Wilson book she had been hoping for - *Clover Moon*. She knew it from the colour of the cover and the picture on the front. "Good old Granny Hopkins," she said to herself, "It's just what I wanted!". She started to read the information on the back cover, it sounded great. She'd save it to read in bed that night after her party with her two cousins, Uncle Sean and Mum and Dad.

She then decided to open Granny Miller's parcel. Imagine her surprise, excitement and disappointment when she realised....

Double Trouble
Deduction and Inference 4 Questions

1.	Why do you think Sadie's grannies had posted their parcels and not given them by hand?
2.	Whose present did she open first?
3.	In which ways were the parcels similar?
4.	In which way were the parcels different?
5.	Who is Sadie's favourite author?
6.	When was Sadie planning on reading her book?
7.	What was the name of the book Granny Hopkins sent?
8.	Where did Sadie find information about her new book?
9.	How many people were going to the party?
10.	What do you think the name of the book Granny Miller sent was?

Deduction and Inference 5

Saturday Morning Football

Tom, Ali and Sanjay had taken their football to the park on Saturday morning. They had to get there early to be there before the big boys came and took over the pitch. They knew the big boys wouldn't let them play.

Ali brought his goalkeeper gloves and his green Brunton Town goalkeeper shirt with his favourite Brunton Town player's name on the back, Jack Symonds. Tom and Sanjay played against each other to see who could score most goals past Ali but Ali was an excellent goalkeeper, he was tall, strong, brave and had very fast reactions. Whoever was first to score five goals would replace Ali in the goal. But, because Ali was so good, this would take a while. He dived, he punched, he caught and he ran so well that the other two boys struggled to score. All the time they played the boys kept a look out for the big boys as they knew that their time on the pitch would end when they turned up.

After 45 minutes, Tom had scored three goals and Sanjay four and Ali was covered in mud from head to toe. At eleven o'clock, the big boys started to arrive so the three friends decided it would be best to leave. Tom and Sanjay patted Ali on the back and congratulated him on his goalkeeping skills.

Saturday Morning Football
Deduction and Inference 5 Questions

1.	How many friends went to play football?
2.	Why did they have to be at the park early?
3.	Who was Ali's favourite player?
4.	Who played in goal?
5.	How did they decide who would go in goal after Ali?
6.	Which four qualities did Ali have that made him an excellent goalkeeper?
7.	Whilst they were playing, what did the friends have on their minds?
8.	After forty five minutes how many goals had been scored?
9.	At what time did the boys start to play football?
10.	What had the weather been like? How do you know this?

Deduction and Inference 6

Shopping List

SUPERMARKET

1 Kg. self raising flour
250 grams margarine
Strawberry jam
Icing sugar
6 eggs
4 pints semi-skimmed milk

Get Malta holiday brochures from TRAVEL AGENTS

Shopping List

Deduction and Inference 6 Questions

1.	How many places does the shopping list tell you to visit?
2.	From the list of things to be bought at the supermarket, what do you think is going to be made?
3.	What do you think has to be picked up at the cobblers?
4.	A holiday is being planned, what do you think is the destination?
5.	Which two items on the list lead you to believe this?
6.	What else might you get at the Post Office?
7.	What do you think 'Tyson' is? What makes you think this?
8.	If you were planning this trip to the shops, where would you visit last so you didn't have to carry heavy shopping far?
9.	Which item on the list might you call 'fragile'?
10.	Which two types of animals have been used to produce the meat bought at the butchers?

Deduction and Inference 7

England's Glory

It is over fifty years since the England football team won the World Cup. In 1966 the finals were held in England and the final took place at the old Wembley Stadium in London on Saturday July 30th. England had reached the final where they were to play West Germany. After 90 minutes the score was two all so thirty minutes of extra time had to be played to decide who would win the World Cup. Eventually England won 4—2 with Geoff Hurst scoring three goals (a hat-trick). It was a fantastic achievement and many people in the country were exceptionally happy. The manager of the team was called Alf Ramsey and as a way to say thank you he was knighted - he became Sir Alf Ramsey. Geoff Hurst was also knighted but not until 1998.

Since then England have tried to repeat this achievement but have never done so. 1966 remains a highlight of England's football achievement. Who knows when it will be repeated?

England's Glory
Deduction and Inference 7 Questions

1.	In what year did England win The World Cup?
2.	How many years ago was this?
3.	In which city was the final held?
4.	On what day of the week was 1st August 1966?
5.	Who did England play in the final?
6.	Including extra time, how long did the match last?
7.	How many different players scored England's goals?
8.	Which England footballer became a knight?
9.	How many years after the World Cup final was Geoff Hurst knighted?
10.	What term is used to describe anyone scoring three goals?
