

Name: \_\_\_\_\_

Can you use your block graph  
about favourite toys to work out the answers to these questions?

How many children chose a doll?

$$\img alt="A rag doll" data-bbox="285 268 382 344"/> =$$

How many children chose a transformer?

$$\img alt="A transformer robot" data-bbox="292 413 374 501"/> =$$

If you counted all the children who chose a teddy and all  
the children who chose a doll, how many would there be  
altogether?

$$\img alt="A teddy bear" data-bbox="175 600 215 640"/>  +   =$$

If you counted all the children who chose a  
computer game and all the children who chose building  
blocks, how many would there be  
altogether?

$$\img alt="A computer game box" data-bbox="155 835 235 865"/>  +   =$$
